

Prescott Vette Sette 2026 Corvette Car Show

Judging Method

For our 2026 Corvette Car Show, The Prescott Vette Sette (PVS) is offering the option to not have your Corvette judged. We have added this option as so many participants in the past have told us that, as much as they love their car, it's "just another Corvette!"

The PVS Corvette Car Show is a "judged" car show. However, our method of judging is so much simpler than many other judged car shows.

Let us begin by making sure you know that we do not include our own club cars with the judging of the participants cars! This is "your" car show! We are proud and happy to have you visit us!

Now let's talk about judging. As stated above, we all love our Corvettes and feel they are special. However, many of us recognize that our car is "similar" in appearance to others of our generation. In other words, a nice car but not special! Thus, you may choose not to include your car in the judging.

The foundation of our car show judging is "**Appearance!**" Does it stand out? Does it "**POP?**" It's that simple!

Judging criteria is the overall condition and appearance of the car. In the eyes of the judges, which Corvette stands out?

There will be 300 eye catching Corvette's entered in our show. Understanding our judging criteria, ***it is up to the owner to present his or her car in its best form.***

It's your choice!
